UNPACK THE MYSTERIES OF THE UNIVERSE

The **Space: Galactic Edition** from Cardsmiths takes collectors on a journey exploring our closest celestial neighbors, like the moon and Mars, all the way to the furthest reaches of the known universe and beyond. Along the way, you will encounter space-based technologies, transportation systems, astronomers, elements, physicists, Greek mythology, mathematicians, and possibly even extraterrestrial life forms.

During your quest through the stars, look out for key discoveries like Parallel Rainbow Holofoil cards, serial-numbered Gemstone Refractor™, Constellation Refractor™, Solar System Refractor™, and Deep Space subset cards.

Those treasures alone would be enough to satisfy the most intrepid trading card explorers in the galaxy, but for those willing to venture into uncharted depths, there are even more rare discoveries to be made.

Randomly inserted in Galactic Edition packs are specially marked cards redeemable for various denominations of cryptocurrencies like Bitcoin, Ethereum, Litecoin, and Dogecoin.

UNIQUE EXCLUSIVES FOR EACH BOX TYPE
