

MOTIVE **CBD**™

WE ARE ALL ATHLETES

WE WALK

WE RUN

WE CLIMB

WE ROLL

WE SING

WE DANCE

WE CYCLE.

WE ARE ALL DRIVEN BY SOMETHING.

An invisible force. A propelling energy. It moves us—pushes us forward. A goal. It pushes us forward and encourages us to live better. To be better.

WHAT'S YOUR **MOTIVE?**

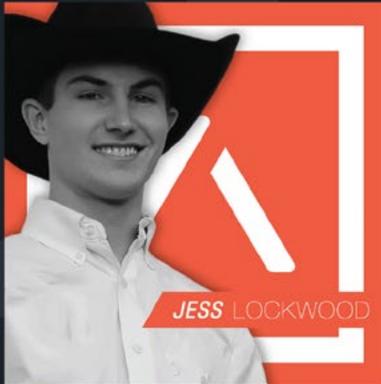

TEAM **MOTIVE** AMBASSADORS

Our group of ambassadors were curated to represent a variety of diverse backgrounds, including current & retired athletes, Olympic champions, and sports commentators. They are relatable yet aspirational and help support the overall Motive mission to achieve these goals:

TO **INSPIRE** EVERY ATHLETE TO FIND THEIR MOTIVE

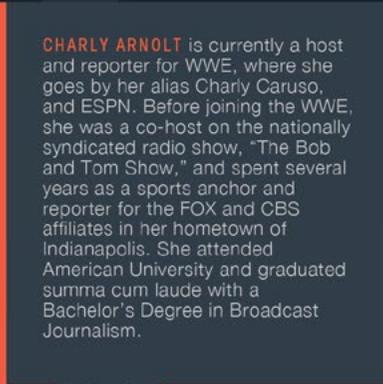

TO **GUIDE** EVERY ATHLETE THROUGH THEIR JOURNEY

TO **SUPPORT** EVERY ATHLETE AND HELP THEM ACHIEVE THEIR GOALS

JESS LOCKWOOD

JESS LOCKWOOD won the 2017 Professional Bull Riding World Championship at the age of 20, making him the youngest world champion in PBR history. Lockwood was also 2016 PBR Rookie of the Year and the current No. 1 ranked bull rider in the world. His parents were also bull riders and his fiancé, Hailey Kinsel was the 2018 WPRA Barrel Racing world champion. Lockwood is a native of Volborg, Montana.

CHARLY ARNOLT is currently a host and reporter for WWE, where she goes by her alias Charly Caruso, and ESPN. Before joining the WWE, she was a co-host on the nationally syndicated radio show, "The Bob and Tom Show," and spent several years as a sports anchor and reporter for the FOX and CBS affiliates in her hometown of Indianapolis. She attended American University and graduated summa cum laude with a Bachelor's Degree in Broadcast Journalism.

NICK MANGOLD

NICK MANGOLD was a seven-time Pro Bowl selection and a three-time All-Pro selection during his career with the NY Jets. Mangold was also first team All-American at Ohio State University and twice earned All-Big Ten Honors. Mangold supports a number of local and national charitable organizations including "Answer The Call" which supports the families of fallen New York Police, Fire & Transit Workers; Little St. Nick Foundation and Wounded Warrior Project. He is a proud father of four children.

MOTIVE CBD

MOTIVE CBD TOOTHPICKS 250MG

These CBD infused toothpicks are perfect to take on the go, packed in a very portable tube of 10. Each pick contains 25MG of CBD to help you stay active and on the move. The unique aspect of these toothpicks, is that the CBD is infused on to the entire pick, which allows for sublingual delivery. These Motive picks utilize all of the mucosa linings of the cheeks, tongue and lips and allow the CBD to reach your bloodstream and interact with the endocannabinoid system quickly. This means the CBD is not metabolized, making the benefits of the CBD greater and faster!

- Isolate hemp is 100% THC free and non-psychoactive
- Each pick is fully coated with CBD to maximize the CBD delivery
- Each toothpick has 25MG of CBD, 10 picks per tube
- Sleek and discreet, just suck on the toothpick and let your saliva begin to administer your CBD to your system
- Switch ends of the pick, as the entire pick has been coated with CBD
- Start and stop - each pick is made of white birchwood, and will dry for later usage
- Available in 3 flavors, Bacon, Mountain Berry and Cinnamint
- Sugar free, zero calories, gluten free, keto and vegan friendly
- Pesticide free
- Made entirely in the USA

INGREDIENTS:

- 25mg CBD
- Natural (Cinnamint) and artificial (Bacon and Berry) flavors
- Sucralose
- Xylitol
- Spilanthes (an important medicinal plant that is known to induce the salivary glands, aiding the delivery of CBD

RETAILER SUPPORT

WHY *MOTIVE CBD*?

Why Motive?

Our CBD products are created with athletes in mind.

- Routines – our athletes use Motive CBD items in their workout routines because they like what the CBD does for their bodies.
- Motiv8 Day Challenge – a unique program for the consumer that introduces them to CBD in a friendly way.
- Supportive – we support all athletes, and the retailers who sell to them, with education and information about CBD.

Safe Ingredients

Motive CBD is extracted from fully compliant, US grown industrial hemp.

- Full spectrum CBD Oil incorporates all elements of the hemp plant and contains > .3% THC
- Non Full Spectrum CBD items are third-party tested to guarantee 0% THC
- All Motive products are all 100% non-psychoactive and will never get you high

All-Natural CBD

All Motive Items contain CBD that comes from Hemp that is all natural, and organic. Hand selected ingredients to guarantee only the highest quality products.

- Organic
- Non-GMO
- Fully compliant
- Vegan friendly, Gluten free
- Third-party tested

* Some Motive Items may necessitate the addition of artificial flavors, or chemicals that allow the CBD to be delivered. All items list all of the ingredients and these are called out when applicable.

What is hemp CBD?

Cannabidiol (or CBD) is a natural chemical compound derived from the buds of hemp plants. CBD is known for its all-natural ability to promote wellness and recovery.

How does CBD work? Healing without the "high."

CBD works with the body's natural endocannabinoid system by triggering chemical receptors that support the natural production of enzymes. Both CBD cannabinoids and the body's naturally produced cannabinoids (Anandamide and 2-AG) work together to promote homeostasis, or balance.

There are cannabinoid receptors in four main areas of the body:

- Brain + central nervous system
- Peripheral nervous system
- Gastrointestinal system
- Connective tissue

By sending cannabinoids to our network of receptors, CBD helps to regulate:

- Stress levels
- Inflammation
- Sleeping patterns
- Cognitive functions
- Immunity

Motive's Full Spectrum Oil (Tincture) items contain less than .3% THC. You get the benefits of the added compound, and like all Motive CBD items, this won't give you any feeling of being "high".

Motive's many other items contain no THC, just organic CBD.

Hemp and Marijuana plants. Both part of the Cannabis family.

Both plants are part of the Cannabis family, but serve very different purposes.

Marijuana contains 5-20% Tetrahydrocannabinol (or THC) content. THC is the chemical responsible for marijuana's psychological effects, often used for medicinal or recreational purposes.

Hemp plants are regulated to contain a low level of THC level (less than .3%) and high cannabidiol content. Cannabidiols also act as an antagonist against THC, rendering the trace amounts of THC ineffective.
